## Étude de cas n°6

**Gérer la planification de plus  
de 4'000 repas des divers  
établissements scolaires selon les  
régions, établissements, jours et  
intolérances.**

Découvrez les problématiques exposées par notre client et comment nous les avons résolues en proposant des solutions adaptées sur mesure. Selon ses besoins réels, étape par étape.

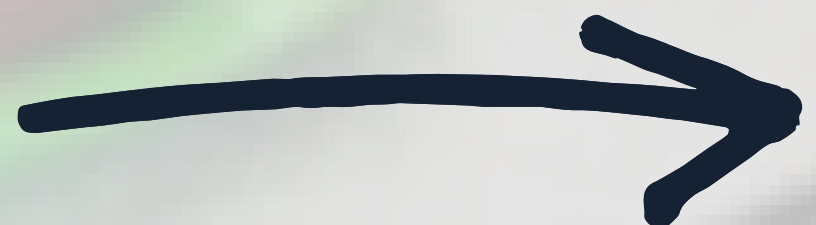

# Outil de planification, regroupement automatisé

## Besoins du client :

- Compilation du nombre de repas selon les divers critères :
  - établissements
  - âges (adultes / enfants)
  - intolérances (~14)
  - jours par semaine
- Regroupement des données de plus de 65 établissements
- Simplification des commandes
- Vision généralisée sur la semaine

## Problématiques du client :

# Problématiques du client

- **Un fichier par établissement, une ligne par jour**  
 → trop complexe
- **Quantité de fichiers avec volume de données considérables**  
 → risques d'erreurs
- **Visibilité sur courte durée,**  
 → pas de vision globale
- **Saisie manuelle des commandes clients**  
 → perte de temps
